MAKE EVERY WORKDAY
EARTH DAY

www.ontario.ca/wastereduction

Paper recycling is on a roll.

These days we're recycling more than ever – but it doesn't take much to mess up the process. Mixing garbage with paper recycling may spoil a whole bin.

Contact building management if you have questions or concerns regarding waste.

DID YOU KNOW when you sort your paper recyclables properly, each tonne of paper saves up to 17 trees and 7,000 gallons of water!
